See attached for the draft. I need your help with the three outlined below:

Management Decision – ATA will no longer be funded

Date – Marketa decided to let the two contracts expire. Do you know what date this was?

Date – Contractors are notified that their current contracts will not be extended. Do you know what date this was?

2/29/2016 – email from K. Matherne – ATA is back on... [Do you know if this was the same date that you were told not to let them expire?](#)

Subject: Caring to Love

I need a specific timeline of the A to A contracts and RFP, beginning with the time that Marketa decided to let the two contracts expire. This should include the amount and time period for the two contracts, the date that we contacted them to tell them that we were letting the contracts expire, the date that we were told not to let them expire, the date that we issued the RFP, whether or not we did emergency contracts and the dates of those, and dates of any communication with Caring to Love.

Also, did we inform them of the new RFP? Do we normally do that?
